The Financial Policy Office (FPO), within the Office of the Controller, oversees the development, communication and management of University-wide financial policies. FPO’s mission is to ensure that financial policies are accessible, easy to use tools for the Harvard financial community, and to help create new policies where needed. A full list of financial policies and links to other University policies may be found at <http://policies.fad.harvard.edu/>. Additional training and reference materials may be found on Harvard’s Training Portal: <https://trainingportal.harvard.edu> .

In addition to University-wide financial policies, Financial Accounting and Reporting (FAR) has an internal control program designed to reduce risks associated with financial reporting. To date, nine financial cycles have been assessed and key control activities have been documented which must be followed. Additional details may be found at: <http://hwpi.harvard.edu/internalcontrols/business-cycle-controls-matrices>
